## Warranty and Date of Purchase

Your Warranty begins on the date of your purchase and extends for the duration of months shown on the given Chart. You may provide your date of purchase by presenting the original receipt for the purchase of your original battery. Otherwise, Hyper Energy batteries are provided with a limited warranty to the original purchaser of the Hyper Energy branded battery models listed in the Chart.

Limited warranty ensures that your battery is free of defects in material and workmanship for the duration of the warranty periods listed for your specific battery model in the warranty chart. If your battery fails due to a defect during the Free Replacement Period, you may obtain a free replacement battery. If your battery also has a Discount Period and fails due to a defect during that Discount Period, you may purchase a replacement battery at a discounted price. Your discounted price will be the Suggested Retail Price for your replacement battery model at the time you return your original battery, the percentage discount shown on the Chart will be discounted from the suggested retail price. Replacement battery under this Warranty must be equivalent to your original battery. You will still need to pay any taxes and legislatively imposed fees on your replacement battery. Any warranty coverage that remains on your original battery when you return it for a replacement battery under this Warranty will carry over to your replacement battery. Your replacement battery will not have any new or separate warranty coverage. To obtain a replacement battery, you must present your original battery the Dealer that has a matching replacement battery in stock. That dealer will have a reasonable time to test your original battery and, if defective, replace it.

### **\* WARNING\***

**Using an Automotive battery on a commercial vehicle can shorten your Warranty Period.**

**If you use your Automotive™ battery in a vehicle used for commercial purposes, a truck over one ton, or a vehicle with a diesel engine other than vehicles used for personal purposes, your warranty coverage will be limited to a one-year Free Replacement Period unless it is a commercial type battery.**
